

আইসোটোপ হাইড্রোলজি বিভাগ:

ক্রমিক: নং	সেবার নাম	সেবার মূল্য/নমুনা
01	Sampling charge for collection of Carbon-14 (^{14}C) samples from shallow and deep wells by carbonate precipitation method and using submersible pump or other pumping method.	২,০০০/- - ২,৫০০/-
02	Sampling charge for collection of groundwater and surface water samples for Stable Isotopes (^{18}O , ^2H & ^{13}C), Tritium (^3H) including Hydro-chemical (Anion, Cation & Trace element) analysis/well purging by using different pumping system/in-situ measurement of physic chemical properties of samples.	১,৫০০/- - ২,০০০/-
03	Analysis of water samples for determining the TOC/DOC values.	১,০০০/-
04	Analysis of water samples for determining the BOD/COD values as mentioned in the citizen charter.	২,০০০/-
05	Daily expert allowance for different categories of scientists, officers and support staff for isotope and hydrogeological investigation work/field reconnaissance survey/identification of wells and surface water points/collection of water samples for isotope and hydro-chemical analysis/determining physic-chemical properties of water samples/collection of Carbon-14 samples by carbonate precipitation method/data analysis and interpretation of isotope data.	
	a) CSO & Equivalent	৬,৬০০/-
	b) PSO & Equivalent	৫,৪০০/-
	c) SSO & Equivalent	৪,৩০০/-
	d) SO & Equivalent	৩,৫০০/-
	e) Other Officers	১,৫০০/-
	f) Workers	৭,৫০/-
